Sir,

Sub:- Industries - Government Silk Filatures, Kollegal Temporary staff for work connected with the maintenance and supervision - Sanction - Requesting.

The Assistant Engineer (Electrical) in charge of the electrification of the Government Silk Filatures, reports that the following staff are necessary for the efficient operation and maintenance of the transformer sub stations, H.T. feeder lines, wiring and motor installations etc., in both the filatures.

X

1. 1 Supervisor, IInd Grade on Rs.70-9/2-106 - Common to both filatures
2. 3 Wiremen on Rs.40-3/2-55 - 2 for the Govt. Silk Filatures and one for the Kollegal Silk Filatures.
3. 1 Lineman on Rs.40-3/2-55 - Common to both filatures.
4. 4 Helpers on Rs.20-2/2-30 - Two for Government Silk Filatures, one for Kollegal Silk Filatures and one common to both.

49.

2

-4-

The above staff will be adequate for working the filatures single shift only. I agree with the Assistant Engineer; (Electrical) that the above staff is essential for the purpose referred to and request that Government may be pleased to sanction its employment.

2. The expenditure involved in respect of items No.1 and 3 and on one helper in item 4 will be debited half and half to "43.a. Industries - Sericulture, J.J. Silk Filature Factory, at Kollegal" and "P. Kollegal Silk Filatures" and in respect of other items, it will be debited to the filature concerned as indicated above.

Sub: Establishment - Industries - Silk Filature factories at Kollegal - Electrification - Staff for operation and maintenance of Transformer Substation etc.

Copy of letter No 1113-E/43 dated 21st July 1943 of the DIE containing proposals for the employment of staff required for the operation and maintenance of the Transformer Substation in the Silk Filatures at Kollegal is forwarded to the CE (E). The proposed staff appears very extravagant for the purpose. The CE(E) is requested to report what electrical establishment the Kollegal Panchayat has at present and wherein it is possible to make arrangements with the Board to depute its staff to attend to this work in the Silk Filatures.

Encroachments—Municipalities—Powers of the municipal council to grant licence and of the Commissioner to remove—Explained.

READ—the following papers :—

From the Commissioner of the Bezwada Municipality, dated 3rd January 1939, No. R.C.A. 8-4491/37.

Endorsement of the Chairman of the Bezwada Municipal Cuncil thereon.

Order—No. 1942, L.A., 16th May 1939.

The Commissioner of the Bezwada Municipality is informed that subject to the provisions of sub-section (5) of section 183 of the Madras District Municipalities Act, 1920, the municipal council is competent under sub-sections (1) and (3) of the said section to grant licences or leases for encroachments on public streets even in cases in which he had directed the removal of the encroachments. The Commissioner should not exercise his powers under section 182 (1) of the Act in cases in which the council has granted a licence or lease under section 183 of the Act except—

(i) where the approval of the Collector for the grant of the licence or lease is necessary, under the notifications issued by the Government under sub-section (5) of section 183 of the Act and such approval has been refused, or

Sir,

Establishment + Industries - Silk Filatures Factory at Kollegal - Electrification - Staff for operation and maintenance of transformer substation etc.

Ref 3 above — Your Memo No. 19432 D1/43-2 d. 7-8-43.

I have the honour to state that all the staff proposed by the Director of Industries does not appear necessary.

The following electrical establishment is employed in the Kollegal Panchayat Board.-

1. Electrical Engineer IV Grade.

Office.

1 clerk and one peon.

Generation.

2 Drivers
2 oilers
3 coolies

Distribution.

1 wireman
1 helper.

The

The President, Kollegal Panchayat Board who was addressed on the matter by the Chief Elecl. Inspector to Government reports that as the Panchayat Board is having a limited staff it is not possible to depute any of the staff for the actual operation and maintenance of the substation etc., at the Government Silk Filatures but that however the Electrical Engineer can supervise the operation and maintenance of the substation etc. at the two Government Silk Filatures including the electrical equipment and distribution lines within the filatures if adequate staff is given to him. As this work would be an additional responsibility over and above the Electrical Engineer's normal work, the President, Kollegal Panchayat Board requests that he may be paid an additional remuneration.

I recommend that the Electrical Engineer of the Kollegal Panchayat Board may be deputed to supervise the work and he be paid an additional remuneration equivalent to 1/5th of his pay for that purpose. In that event the following workcharged staff will I think be sufficient for single shift work.

one line Inspector on Rs. 50-4/2-70 62.
Two wiremen on Rs. 30-2/2-50 39 7/9
Two Helpers on Rs. 18-1½/2-27. Qv. 23 1/5.

The draft order may be accepted subject to the following remarks.

It is not known on what basis the Director of Industries has suggested the scales of pay for the Wiremen, Linemen and Helpers. They are not recognised scales.

ASST SECRETARY TO GOVERNMENT
RECD 27 JUL 19..
FINANCE DEPARTMENT

Wiremen. Different scales of pay have been allowed to wiremen in different departments. The scale of pay of wiremen ~~in the Education Department~~ is Rs 30-2/2-44-1/2-45, Rs 28-4/2-36-3/2-45 and Rs 19-2/2-23-1/2-24 in the Central Jails, Vellore and Bellary and in the Medical Department. This department may suggest that Rs 30-2/2-44-1/2-45 may be allowed to the Wiremen in this case.

21877 E II

1943251

P I C F

Linemen. The scale of pay of Rs 40-3/2-55 suggested for the Linemen seems to be excessive when compared to the scale of pay of Rs 30-3/2-39-2/2-45 allowed to Linemen in the Educational Department. Finance may suggest that the latter may be adopted.

Helpers. There seems to be no analogous posts in the other departments. The work of these Helpers will not presumably be more arduous than that of Pump House Operators, College of Engineering, Guindy, the pay for whom is Rs 19-2/2-23-1/2-24. This scale may be adopted.

The cost according to the proposal of the Director of Industries is Rs 5452 per annum i.e. more than Rs 5000 per annum. If the scales of pay as proposed by the Director are adopted, the proposal will have to be treated as a new service and Development will have to obtain orders in full circulation and also the authorisation of H.E. the Governor for a supplementary statement of expenditure in due course in the current year. If the suggestions of Finance are accepted, the cost will be reduced to about Rs 4630 per annum and the proposal need not be treated as a new service, but A-1 may see.

Dept. propose to adopt the scales of pay mentioned by the C.E (Elecy.) for the reason that as similar scales of pay have been attached to similar posts in the Operation system of the P.W Deptt. it may not be possible to get men on the scales of pay suggested by Finance.

pp. 2-3 above

2/ As pointed out already, there are no posts with similiar scales of pay under the Provincial subordinate service. Perhaps these posts in the Operation system referred to by the C.E were created by him under the Financial powers delegated to him. Sr it does not appear proper to adopt such an arrangement as an analogy. Besides, this may set up an inconvenient precedent, as in course of time people holding similar posts in

* Wiremen in Education + Rural Dev Deptts. Linemen in Education

other departments may come up to the Govt. for increase of pay.

The C.E only doubts whether suitable men will be forthcoming on the scales of pay suggested by this dept. Unless some practical difficulty is actually felt in recruiting candidates for these posts there does not appear to be any justification for adopting the scales of pay suggested by C E. In temporary establishments of this kind the main consideration that attracts candidates is the the minimum of the time scale. In the case of wiremen, the minimum of the time scale suggested by this dept. coincides with that of the scale of pay suggested by the C. E. In the case of the Helpers, the minimum as suggested by this dept. is Rs. 19 whereas the minimum as suggested by the C. E is only Rs 18

Finance may ~~kindly~~ advise that the scales of pay ~~already~~ suggested by them be adopted.

Dis(Electrical) Works posts for class I

Re Scales of pay Assistant Engr & Asst C.E. (Electrical)

Re Scales are by no means Controversial.

Sd 28/9/43

A,

I am in agreement that the proposals of C.E.(E) should be accepted. The Scales are reasonable & the matter is urgent. The leisurely procedure of Secy. Fin is not appropriate
